# LADDERS FOR FITTERS

Plug Ladder	53
Double Sided Step Ladder	53
Dual Purpose Ladder Type M	54
Four-Part Telescopic Ladder	54
Telescopic combination ladder	55
Telescopic Ladder	55
Standard Ladders And Scaffolds	55

## PLUG LADDER

### PACKING MEASURES:

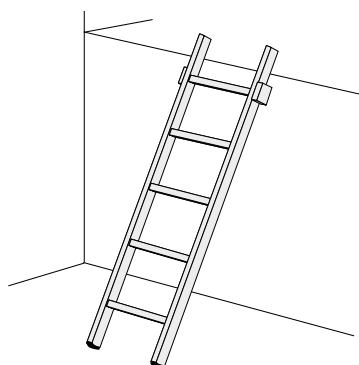

Ladder width top: 0,34m

Ladder width bottom: 0,43m

Weight: ca. 4,4kg per ladder

Allowed work load for a three part ladder: 150kg

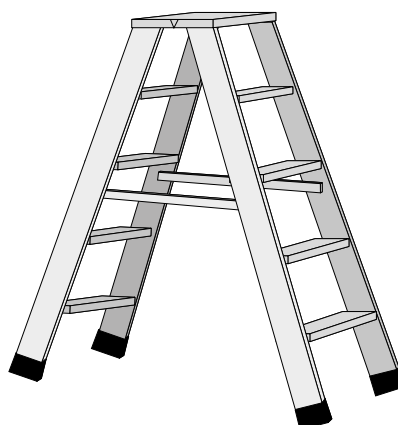

**ADVANTAGES:** • moderate packing measures • extendable up to ca. 4 m length • economic solution • safe stand due to robust plug mechanism • light-weight aluminium

Item No.	Description		ladder length (m)
35202165001	ALU plug ladder single middle part	5 rungs	1,65m
35202165012	ALU plug ladder single lower part	5 rungs	1,65m
35202165022	ALU plug ladder single upper part	4 rungs	1,68m

## DOUBLE SIDED STEP LADDER

**ADVANTAGES:** • low packing measures • wide platform without clefts • secure stand due to solid polyester restraint straps • light-weight aluminium

### STEP LADDER ACCESSIBLE FROM ONE SIDE

Item No.	Description	ladder length (m)
35002088001	ALU step ladder, 1,83 m/lg., 1x4 steps	3,00
35002148001	ALU step ladder, 2,26 m/lg., 1x7 steps	3,50

### DOUBLE SIDED STEP LADDER

Item No.	Description	working height (m)
35002074001	ALU double sided step ladder, 0,82 m/lg., 2x3 steps	2,20
35002075001	ALU double sided step ladder, 0,75 m/lg., 2x3 steps	2,25
35002095001	ALU double sided step ladder, 0,97 m/lg., 2x4 steps	2,45
35002095002	ALU double sided step ladder, 1,09 m/lg., 2x4 steps	2,70
35002120001	ALU double sided step ladder, 1,20 m/lg., 2x5 steps	2,65
35002120002	ALU double sided step ladder, 1,36 m/lg., 2x5 steps	2,95
35002140001	ALU double sided step ladder, 1,43 m/lg., 2x6 steps	2,85
35002143001	ALU double sided step ladder, 1,63 m/lg., 2x6 steps	3,20
35002165001	ALU double sided step ladder, 1,66 m/lg., 2x7 steps	3,10
35002190001	ALU double sided step ladder, 1,90 m/lg., 2x8 steps	3,35
35002230001	ALU double sided step ladder, 2,30 m/lg., 2x10 steps	3,65
35002235001	ALU double sided step ladder, 2,35 m/lg., 2x10 steps	3,75

**Details:** Aluminium plug ladder with rectangular light metal steps, replaceable non-slip caps

**Details:** Corrosion resistant rectangular stiles made of extruded aluminium alloy, 80mm deep steps. Ladder conforms to DIN and BGV D 36.

Step modul

## DUAL PURPOSE LADDER TYPE M

Contrary to aluminium, glass reinforced polyester is non-conductive and has a higher cold and heat resistance. The type M ladder is designed for a maximum voltage of 30.000Volt. Non-conductive dual purpose ladder for fitters and service personnel. Can be used as double sided steps or as ladder. Grace to the two-piece design with steel hinges the ladder can be easily folded away to a handy size for storage or transport also in small cars.

The ladder has rectangular glass reinforced polyester stiles 58x25 mm and 2x3 aluminium rungs. Bottom end equipped with light metal stabiliser bar 660mm long.

Ladder components conform to DIN und VBG 74.

### PACKING MEASURES:

Length: 1.000mm (unfolded ca. 1.920mm)

Width: 350mm (ca. 660mm with bar)

Height: 135mm

Weight: ca. 6,0kg

Automatically locking steel hinges allow positioning at 0°, 35° and 180°. The anti skid shoes and the stabiliser bar guarantee a safe working environment.

**OPTIONAL:** A „caddy“, suitable for the multi-purpose ladder, is available as an accessory. The multi-purpose ladder can be used as a sack trolley when used in conjunction with the „caddy“. An ideal aid for the fitter for easy transportation of tool boxes and devices.

**Details:** Caddy with 2 rollers, max. load of 50kg, foldable bearing surface, locking rod, fully galvanized (steel)  
Weight: 8,5kg

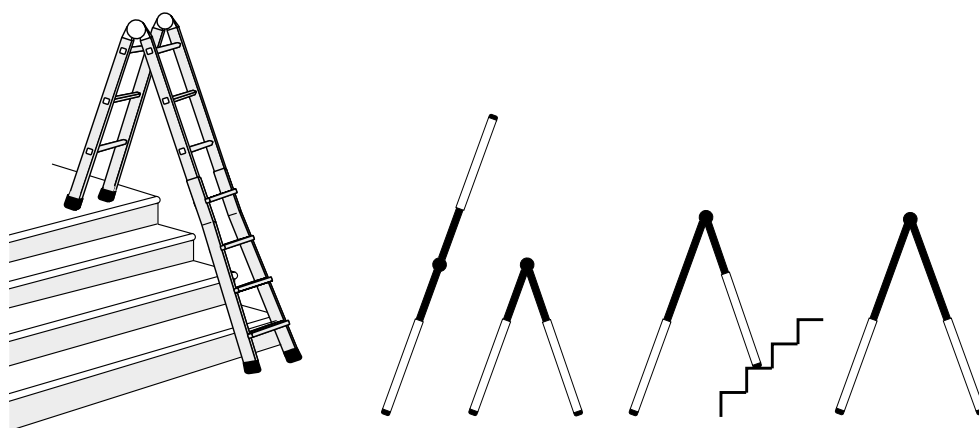

Item No.	Description	length of ladder (m)
0174190002	Dual purpose ladder for fitters, type M	1,52

### ACCESSORIES

Item No.	Description
020999001	Caddy
352999007	Step module MaxxStep, length 276 mm, step depth 80 mm

## FOUR-PART TELESCOPIC LADDER

**ADVANTAGES:** • handy size for storage • moderate packing measures for transport • versatile use • can be used on stairways • light-weight aluminium

Item No.	Description
35010310002	Four-Part Telescopic Ladder, 4x 3 steps
35010420002	Four-Part Telescopic Ladder, 4x 4 steps
35010530002	Four-Part Telescopic Ladder, 4x 5 steps
35010640002	Four-Part Telescopic Ladder, 4x 6 steps

### ACCESSORIES

Item No.	Description
35017000001	Beam extension for Four-Part Telescopic Ladder

**Details:** Aluminium ladder with each half independently adjustable from rung to rung using spring loaded rung locks. Strong central hinges with automatic locking pins. Non-slip caps on all stile sections.

## TELESCOPIC COMBINATION LADDER

**DETAILS:** • Mini format for transport, flexible in use as a leaning ladder and stepladder • When pushed together, the ladder fits in every trunk • May be used as a leaning ladder or stepladder when fully extended • Wide steps ensure comfort when climbing up and down • Rails abrasion-resistant anodized • Original

TELESTEPS with proven AUTOSTEPS-mechanism • Steps and rails made of extruded aluminum profiles • Vertical rung / step spacing: 300mm • Rung / step type: corrugated • Step depth: 90mm • Coating: anodized • Load max. 150kg

	Telescopic combination ladder 2,30m	Telescopic combination ladder 3,00m
Ladder length extended (m)	2,30	3,00
Ladder length retracted (m)	0,71	0,78
Working height (m)	3,60	4,20
Crossbar width (m)	0,69	0,77
Weight (kg)	14,50	20,0
Number of steps	6+2	8+2
Transport dimensions (mm)	710x590x160	800x600x170

Item No.	Description	Ladder length (m)
113230000	Telescopic combination ladder	2,30
113300000	Telescopic combination ladder	3,00

### ACCESSORIES

Item No.	Description
350999014	Tool tray for telescopic combination ladder

## TELESCOPIC LADDER

**ADVANTAGES:** • extremely moderate packing measures • low weight • easily adjustable • ideal for a variety of jobs • light-weight aluminium

Item No.	Description	Ladder length (m)
1135266000	Telescopic leaning ladder	2,66
1136300000	Telescopic ladder Prime Line	3,00
1135380000	Telescopic leaning ladder	3,80
1133800000	Telescopic ladder Classico	3,80
1136410001	Telescopic ladder Prime Line	4,10

**Details:** Non-wear, solid aluminium alloy ladder. DIN EN 131 compliant with TÜV GS-seal of approval for tested safety.

## STANDARD LADDERS AND SCAFFOLDS

Mobile scaffolds, with supports or collapsible

Mobile shelf ladders

Pull-up ladders, 2-part, 3-part
