SAFE SPACE MATS

Safe space mats for top of the lift car roofs and pits according to EN 81-20. The mats are fabricated out of robust synthetic material with a slip resistant surface compliant with DIN 51130. The three available sizes meet the requirements of EN 81-20 and reflect

the safe space in a laying, crouching and upright position. Supplied without fixing material.

Available in three sizes for 0.5m, 1.0m and 2.0m safe spaces.

Item No.	Description	Safe Space Height
050999019	Safe space mat for one person (upright position)	2,0m
050999020	Safe space mat for one person (crouching position)	1,0m
050999021	Safe space mat for one person (lying position)	0,5m

SAFE SPACE MATS BY STINGL

- EN 81-20 – compliant safe space mats for lift car roofs (5.2.5.7) and pits (5.2.5.8)
- slip resistant according to DIN 51130
- three sizes available:
 - safe space mat for safe space 0,5 m (1 person lying position)
 - safe space mat for safe space 1,0 m (1 person crouching position)
 - safe space mat for safe space 2,0 m (1 person upright position)

The white and black stripes as frames define the area measure of the shelter signaling!
